Cor Super Ratio

To enter into a new life, which is in our sense spiritual and miraculous, it is possible to do so by choice.

One can choose a way of life and state of mind which makes it possible to receive the gifts and graces which are fruits of being in union with happiness and the cause of all knowledge and action, especially quiet action.

The essence of God is Happiness. The fruit of union is knowing. The love of knowing is Quiet Doing.

*Deus Super Omnes Beatus
Super Omnes Sanctitude,
Scientia est Vita,
Facientia est.*

To be the channel and expression of knowing and doing, To enter into miraculous union, To live in habitual joy. Confess that no one has to be unhappy, and do whatever you want.

Listen to your heart, for that is where knowledge acts.

Do only what attracts you.

Do what you feel like.

Cor Super Ratio. The Heart above logic.

If you are lost it is because you ignore your source. Turn around and you will be instantly miracled. There is no delay, no punishment, no more old life. Look inward to see what you want to do and be glad to do it. Being obedient to your heart is not obedience; it is your life and joy. Your whole reason for existence.
